## AUTOMOTIVE AND LIGHT TRUCK GENERAL SERVICE DESIGNED AND BUILT IN ITALY, AND USED BY THE WORLD'S PREMIUM CAR MANUFACTURERS

# DOUBLE SCISSOR FLY 35

FULL-RISE PAD STYLE

7,700 LB./3.5T CAPACITY

COMPACT DESIGN WITH OVERALL WIDTH OF  
80"/2030MM RAISED HEIGHT OF 74.4"/1890MM

### FEATURES

▲  
Volumetric Control

▲  
Extended Ramps for low clearance vehicles and Hot-Dip Galvanization as optional accessories

▲  
Flush or Surface Mounted

# DOUBLE SCISSOR

## 7,700 LB. / 3.5T CAPACITY

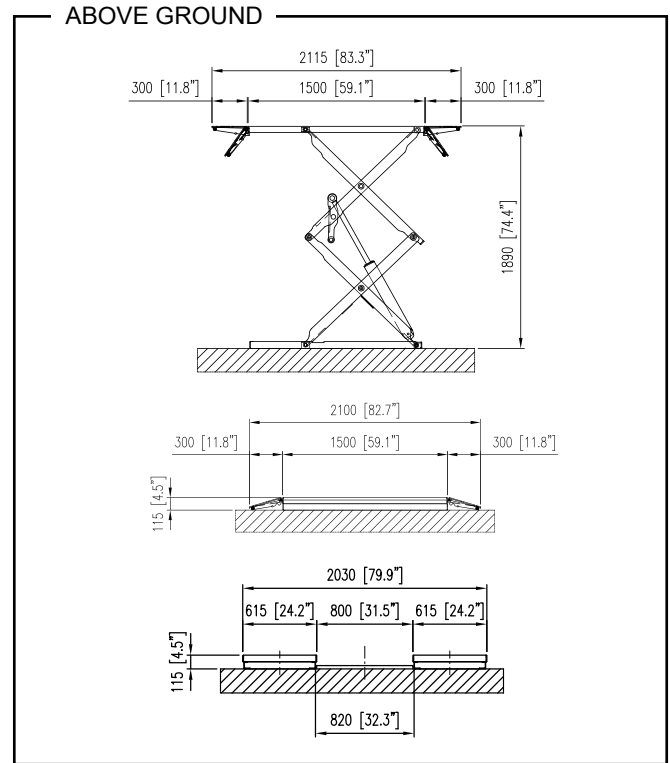

AT OMER USA, OUR GOAL IS TO BUILD LIFTS THAT LAST LONGER, PERFORM BETTER, AND COST LESS TO OPERATE.

| SPECIFICATIONS                 |                                    |
|--------------------------------|------------------------------------|
| Capacity                       | 7,700 lbs. / 3.5T                  |
| Overall Length - Surface Mount | 83.3" / 2115mm                     |
| Overall Length - Flush Mount   | 83.3" / 2115mm                     |
| Overall Width                  | 80" / 2030mm                       |
| Width Between Runways          | 31.5" / 800mm - Adjustable         |
| Deck Width                     | 24.2" / 615mm                      |
| Lowered Height                 | 4.5" / 115mm                       |
| Raised Height                  | 74.4" / 1890mm                     |
| Lifting Time                   | 55 Secs. Raised / 30 Secs. Lowered |
| Power Requirements             | 230 Volts - 60 Hz - 1 PH - 23amp   |
| Shipping Weight                | 1,870 lbs / 850kg                  |
| Part Number                    | OMRFLY35UL                         |

### FEATURES

- Built to higher standard of quality; made in Italy by O.ME.R S.p.A., a world leader in Lift Manufacturing for over 40 years in an ISO 9001 facility.
- No "post" design – Incorporating a smaller footprint than traditional 2-post lifts which maximizes efficiency and productivity of the shop floor.
- Electro-hydraulic double scissor lift, frame contact, low profile with oversized platforms, able to lift most types of vehicle.
- OMER's FLY incorporates a single cylinder on each platform with pneumatically activated safety lock.
- Ultra low-profile max height 4.5" for an easy and comfortable installation without requiring pits for the inground version.
- Lift without electronic sensors, increasing reliability.
- Multiple safeties integrated into design, involving velocity fuse on each cylinder, max pressure valve, acoustic warning for the final descent, low voltage control circuit (24v) and "dead-man" controls.
- Hydraulic and mechanical synchronization system - simple and reliable.
- ALI Certified
- Hot-Dipped Galvanization of the whole structure as an option, offering extra protection from corrosion due to water or salt exposure, extending the life of the equipment.

### EQUIPMENT FOOTPRINT

### OPTIONAL ACCESSORIES

- Hot Dipped Galvanized
- Optional 3-phase Power Supply
- Low Approach Ramps
- Traverse Kit
